nature note

BLUEBIRDS BRING HAPPINESS

On March 30, 1927, the eastern bluebird was officially designated the Missouri state bird by an act of the Missouri Legislature because it was "common in Missouri" and "a symbol of happiness." This was an appropriate selection in every respect. Referring to its pleasing color, naturalist Henry David Thoreau once wrote that "it carries the sky on its back." Add to that its delightful song, non-aggressive manner and beneficial food habits, and you have a truly appealing bird. Residents can even become involved with this state bird by building birdhouses. Most important for a state symbol, bluebirds are fitting for Missouri. They seem to favor the rolling Missouri countryside where they may be seen flitting about from fence post to fence post on any bright spring morning. For those who witness the flash of blue and hear their "cheer-cheeryup" song in such a setting, the phrase "bluebird of happiness" takes on a special meaning. The number of bluebirds in Missouri has varied over time in response to many factors. The Breeding Bird Survey indicates high numbers in recent years. If it were not for the many Missourians who maintain nesting boxes, bluebirds would not be as plentiful.
